
NEWS

With the end of the term, "This Week at the ASC" will be discontinued until October 1 (the week before the next term).

The ASC is co-organizing the conference on "Frontiers in String Phenomenology" at Ringberg Castle (at Tegernsee, near Munich) in the period July 28 - August 1, 2014.

The Arnold Sommerfeld Center for Theoretical Physics will host a PhD school on "Strings and fundamental physics" in the period August 11-22, 2014. Please consult the corresponding links on our homepage.

Tuesday, 22.07.2014

Condensed Matter

09:00h

Room A348/349

Theresienstr. 37/III

Georg Schwiete

Mainz University

The interplay of interactions and disorder explored through fluctuating superconductors

Condensed Matter

11:00h

Room A348/349

Theresienstr. 37/III

Thomas Schmidt

Basel University

New avenues for mesoscopic quantum systems and their applications

Wednesday, 23.07.2014

Sommerfeld Theory Colloquium

16:15h

Room A348/349

Theresienstr. 37/III

William Terrano

Washington University, Seattle

Searching for New Forces Using Torsion Pendula

Coffee and cookies at 16:00 in room A348/349.

Thursday, 24.07.2014

Condensed Matter

09:00h

Room A348/349

Theresienstr. 37/III

Michael Hartmann

Heriot-Watts University, Edinburgh

**Engineered Quantum Dynamics in
Nano-Mechanics and Superconducting
Circuits**

Condensed Matter

11:00h

Room A348/349

Theresienstr. 37/III

Philipp Strack

Harvard University, USA

**Strongly correlated photons and elec-
trons**
