

**NEWS**

With the end of the term, "This Week at the ASC" will be discontinued until October 12 (the week before the next term).

The ASC will be a node of the "It from Qubit" summer school taking place at the Perimeter Institute, July 18-29. The idea is to watch the video lectures from Perimeter in the afternoon, and to gather in the mornings to solve the examples, both in room A450, Theresienstr. 37.
